10th

April 2020

PROFESSIONAL SUMMARY

- B.Tech Computer Science student with specialization in Artificial Intelligence and Machine Learning (AIML).
- Strong foundation in IT, programming, and emerging technologies.
- Proficient in Python, Django, and web development for building functional applications.
- Skilled in UI/UX design using Figma to create intuitive and visually appealing interfaces.
- Actively exploring Generative AI, AI prompt engineering, and AI entrepreneurship.
- Passionate about innovation, problem-solving, and the intersection of technology and business.
- Adaptable and committed to continuous learning in dynamic environments.
- Eager to contribute both technical and creative expertise to impactful projects.

PROFESSIONAL EXPERIENCE

- Developed the official website for Adyasha Enterprises (Freelance)
- Designed the brochure for Orion 2K23
- Built the website for IT Conclave 2025, Sri Sri University
- Intern – Delivery Department, PRODAPT(10th JUNE,2025 - 10th AUGUST,2025)

PROJECTS

- **PRODAPT:** Worked on real-time projects as part of the Delivery team, contributing to internal operations and service automation. Lets check out the works as follows:
- **AMC Services Management:** Developed tools to streamline Annual Maintenance Contract (AMC) tracking and support.
- **Shuttle Services App:** Built an internal application to manage employee shuttle bookings, optimize routes, and automate seat allocation.
- **Gatepass Management System:** Designed a system to log and monitor product movements through security gates, ensuring traceability and approval flow. Collaborated with cross-functional teams and applied agile methodologies to deliver efficient and user-focused solutions.
- **Adyasha Enterprises:-** Developed a responsive and visually appealing website using HTML, CSS, and JavaScript. Focused on clean UI design and smooth user experience. Implemented interactive elements and ensured cross-device compatibility. Collaborated with the client to align the website with their brand identity and business goals.

TECHNICAL SKILLS

Programming Languages: Python

Libraries and Tools: React, Django, Git

Database: MySQL

Design and UX Figma, UI/UX Design

AI and Emerging Tech Generative AI, AI Prompt Engineering, AI Entrepreneurship

CERTIFICATIONS

- 3rd Place – Poster Presentation, IBM ICE Day
- AI Tools and ChatGPT – Masters Workshop
- Participation in HR Symposium on "Digital Transformation and Agile HR"
- AI for Entrepreneurship – NITI Aayog
